Overlocker

Victory

The Victory is a 4-thread overlocker equipped with our exclusive Baby Lock Automatic Thread Delivery (ATD) System, eliminating the need for frustrating tension adjustments.

Other amazing features for endless creative possibilities include our JetAir™ Threading for instant looper threading in any order, a 6mm presser foot height for making overlocking on thicker fabrics a breeze, plus a built-in needle threader and brilliant LED lighting.

ATD NO TENSION
ADJUSTMENTS

JetAir™ Threading System for easy Looper Threading

Thread the entire machine
in less than 1 minute

Easily thread the loopers
in any order

Change any thread without
re-threading others

No more worrying
about tangled threads

JetAir™ Threading completely eliminates the annoying need to thread many points in a specific order for each broken thread or new colour. With our exclusive system, **threading can be completed in less than one minute!**

Simply insert threads into the threading ports, plunge the lever and a blast of air shoots the threads through the tubular loopers – instantly threading the loopers.

The tubular loopers also prevent the threads from tangling, and by keeping the threads completely separated within the machine, the loopers can be threaded in any order. They also allow you to change any thread without having to re-thread the others.

JetAir™ with Tubular Loopers allows you to thread in any order and avoid tangles and knots as threads are not exposed.

Automatic Thread Delivery (ATD) System

Victory takes the tension out of overlocking by removing the need to manually adjust tensions, for a perfectly balanced stitch always. The ATD System delivers the required length of thread for a balanced stitch, rather than putting tension on the thread itself. You simply select A, B, C or D depending on the stitch desired – letting you overlock continuously across any fabric with any type of thread without skipping stitches.

6mm Presser Foot Height allows you to easily work with thicker fabrics.

Built-in Needle Threader for easy, stress-free needle threading, every time.

Automatic Rolled Hem via a simple dial retracts the built-in stitch width finger.

2 Powerful LED Lights flood your workspace with bright and even lighting.

True 2 to 1 Differential Feed ensures more consistent gathering of fabrics and compensates for stretch distortion on your knits..

Other features

- Vertical needle system minimises needle deflection and breakages
- 4, 3 & 2 Thread overlocking
- Up to 1,500 stitches per minute
- Heavy duty cutting system for easily cutting thick fabrics
- Flatlock stitch option for seaming and decorative effects
- Presser foot pressure adjustment screw
- Built-in accessory storage
- 11 Optional accessory feet
- Machine weight 7.5kg

Unrivalled Quality, Durability & Peace of Mind

Baby Lock machines made in Japan are renowned world-wide for their outstanding innovation, technology, build quality and durability, giving us the confidence to offer you a 5 year conditional parts and labour warranty.
